

## OVERVIEW:

National Productivity Organization, Ministry of Industries & Production, a liaison office of Asian Productivity Organization (APO) Tokyo, Japan announces two-day **Evening Training Program** on **"Productivity through Professional Attitude & Behavior"** at Islamabad.

Professional behavior is a key to career success, but it is not always taught. Most people learn how to be professional, meaning they develop their own image and perception of competence, by watching others, but without good role models, it is easy to make mistakes that could be detrimental to your career and overall professional image. When you understand the fundamentals of professional behavior and act accordingly, you are less likely to make those costly errors, and your career will continue on an upward trajectory.
